

QUARTERLY REPORT

CITY OF SUNNYVALE

SUMMER 2002

RETURN TO A TRADITIONAL DOWNTOWN ENVISIONED IN PROPOSED DESIGN PLAN

An extensive outreach program is now underway to familiarize Sunnyvale residents with the Downtown Design Plan, a vision for the future of the City's center developed by a 21-member Downtown Stakeholders Advisory Committee.

The plan details how the downtown could be rebuilt to be more of a vital, traditional downtown neighborhood — filled with places to shop, work, live, and be entertained. The Council adopted the plan in concept in April after a lengthy public hearing. An Environmental Impact Report is now being prepared and will be presented at Planning Commission public hearings before the plan returns to the City Council for final review in 2003.

The Downtown Stakeholders Advisory Committee was created by the City Council last July to work with City staff and consultants in the preparation of the Downtown Design Plan. The committee includes residents, businesses, property owners and developers who participated in six workshops. An evening public forum was held last December to

describe the plan to the public and to receive questions and comments.

"We want our downtown to be a special and charming place," said Joe Antuzzi, chairman of the Downtown Stakeholders Advisory Committee. "It should be a distinctive downtown for a proud city."

The Downtown Design Plan builds upon the unique character and existing commercial success of the 100 block of Murphy Avenue. It seeks to restore as much of the historic downtown street grid as possible, reconnecting areas which were isolated when the Town Center Mall was constructed.

Two proposed changes, for example, will help to achieve a more traditional downtown look and feel. One is the extension of Murphy one block to the south into the area that is now a mall parking lot. It is envisioned that the eastern side of extended Murphy will be lined with shops and restaurants, with a new

parking structure located behind them. The second major shift is the extension of McKinley Avenue one block east from Mathilda Avenue to the mall. This new street area will also be lined on both sides with new shops.

To create a more continuous walking loop through the downtown, the extensions of Murphy and McKinley will be connected by a major pedestrian way through the mall, which could add a multiple-screen movie theater complex plus other new shops and restaurants.

An insert in this issue of the Quarterly Report provides additional details about the Downtown Design Plan and sketches of what downtown might look like in the future. Other key components of the plan include:

- Washington Avenue as a major retail street, lined with stores and restaurants between Mathilda and

see Downtown Update, page 2

SUNNYVALE IS ALL-AMERICA CITY AWARD FINALIST

Sunnyvale is one of 30 finalists, the only one in California, in the 2002 All-America City Award, the nation's longest running and most prestigious civic recognition program. Its application highlighted the accomplishments of the Columbia Neighborhood Center, community programs to preserve the City's agricultural heritage, and Sunnyvale's

recycling programs.

The communities who reach the finals "serve as models for the rest of the country," said Christopher T. Gates, president of the National Civic League. "They are tackling challenges that seem insurmountable and are producing positive and tangible results with ingenuity and collaboration."

Sunnyvale previously won an All-America City Award in 1981 and had

applied twice in the 1990s, but didn't reach the finals. More than 4,000 communities have sought the award since the program started in 1949.

"Reaching the finals is an honor in itself," said City Manager Bob LaSala. "We were obviously disappointed that we did not win the award, but being a finalist is recognition that the Sunnyvale community is successful in meeting tough chal-

lenges and working through complex issues."

The National Civic League is a 108-year-old non-profit, non-partisan organization dedicated to strengthening citizen democracy by transforming democratic institutions. NCL accomplishes its mission through technical assistance, training, publishing, research, and the All-America City Award. 🌟

NEW SWIM POOL OPEN TO THE PUBLIC

Splish! Splash! Sunnyvale swimmers are making a dash...to the new 50-meter swim pool at Fremont High School which is now open to the public for lessons, adult lap swimming and other water programs.

The grand opening of Sunnyvale's finest swimming facility was at the end of June, the culmination of a three-year effort by the City and Fremont Union

High School District to create a partnership for joint use of a pool by students and the public. A group of residents also participated by garnering private donations for the project.

A separate locker/shower building was constructed for public use. Adult lap swimming is available year-round and a wide range of other programs for all ages is available.

The City has a 25-year use agreement

for the new pool with the school district. California Sports Center was selected through a public bid process to operate the public activities at the pool. The firm has more than 14 years of experience in offering recreational programs to the public including swimming programs at Blackford High School and for the City of San Jose. Ricky Silva will serve as on-site manager.

Information about program times and fees is available at the pool or by calling 732-2257. 🌟

SENIOR CENTER CONSTRUCTION ON SCHEDULE FOR SPRING, 2003 OPENING

Construction continues of the much-anticipated new Senior Center, and the project is on schedule for a grand opening in the spring of 2003.

The new facility will be a 23,000-square-foot, single-story building on a knoll of the Community Center campus, near Manet Drive. It will feature a beautiful multipurpose room that will have a stage, an attached patio, and a magnificent view overlooking the pond. The facility will also include health and counseling facilities, reception and lounging areas, and six activity rooms for a wide range of senior programs.

During construction, the Manet Drive entrance to the Community Center has been closed to public

access. New directional signs on Remington and Manet Drive now lead motorists to the Michelangelo entrance to the Community Center. A traffic island was removed to allow space for drop-offs in front of the Recreation Center, and two new handicapped parking spaces were installed. Four more spaces closest to the Community Center have been changed to handicapped spaces.

As part of the overall construction project, the physical layout of the Community Center parking lot will change to accommodate better traffic flow through the entire complex and also to add approximately 119 parking spaces. The renovation of the parking lot will take place in several phases and has been planned so

that as much parking as possible remains available.

The City has received a few questions about trees removed at the construction site of the Senior Center. The design has tried to keep as many existing healthy trees as possible. While some trees will be removed and some relocated, there will be a net gain of approximately 66 new trees.

For more information on the status of construction of the Senior Center, or to be placed on the mailing list to be informed about the grand opening, call 730-7360. For more information about the Community Center landscape and Orchard Heritage Park master plan, call 730-7506. ☀

DOWNTOWN UPDATE

continued from page 1

Sunnyvale. Housing may be built above the stores between Mathilda and Macy's.

- Town & Country is reconstructed as a multi-family residential community, with ground-floor retail uses, bringing permanent residents to the heart of downtown in proximity to the Caltrain Station and commercial services. The residential buildings would be no taller than the adjacent Mozart office buildings, and all parking must be placed underground.
- A 1.6-acre Downtown Plaza provides a public open space to serve downtown shoppers, workers and residents. The forecourt to the eastern entrance to Macy's provides another major open space. For major public events, the block of Murphy south of Washington could be closed to traffic, making the area a 1.5-acre space for gatherings and celebrations.
- Mathilda Avenue between El Camino Real and the Evelyn Avenue overpass is viewed as an

attractive boulevard. Office buildings would line its eastern side, an extension of the office buildings now under construction by Mozart Development Company north of Washington Avenue. The west side of the boulevard is proposed as multifamily residential where there could be four-story residential buildings on Mathilda, stepping down to two stories on Charles Street where it abuts the existing residential neighborhood.

- All existing low-density residential neighborhoods adjacent to downtown are protected, including the Taaffe/Frances Heritage Housing District. Physical gateways at neighborhood entrances are also proposed, to make a clear distinction for visitors between the very public commercial area and the more private residential community. The plan proposes to reduce the residential densities currently allowed east of Carroll Street and along the 100 block of Charles Avenue. It also recommends increasing the required

parking for multi-family residential so there is less possibility of parking overflowing into adjacent neighborhoods.

In response to questions and concerns from residents, the City Council has asked staff to evaluate certain alternatives to the plan, including: Reduced heights along Mathilda Avenue; the potential for residential rather than office use on the east side of Mathilda Avenue between Washington and McKinley; reduced height of residential development in the Town & Country area; increased opportunities for ownership housing and for "live-work" units; and review of design guidelines to insure high-quality architectural design appropriate to Sunnyvale.

Public outreach efforts during the next few months will include several communication efforts plus the construction and display of a three-dimensional model that will allow residents to better visualize the proposed downtown plan. ☀

IMPROVEMENTS PLANNED FOR HETCH HETCHY, ONE SOURCE OF SUNNYVALE’S WATER

Many Sunnyvale residents may have recently read reports in the local media regarding the condition of the Hetch Hetchy water system and wondered how this issue affects Sunnyvale. This is the first in a series of Quarterly Report articles that will provide general information about the Hetch Hetchy system, progress on capital improvements to the system, and how the costs of improvements to the system may affect the water rates for Sunnyvale residents and businesses.

The Hetch Hetchy system, governed by the San Francisco Public Utilities Commission (SFPUC), is the sixth largest water system in the nation. It delivers an average of 206 million gallons of water per day to 2.4 million people in the Bay Area. Sunnyvale is one of 29 system customers outside the City of San Francisco. Sunnyvale purchases approximately 44% of its water from Hetch Hetchy, with the rest coming from a combination of water from the Santa Clara Valley Water District and local wells.

Much of the Hetch Hetchy system was built in the late 1800s and early 1900s and has reached or exceeded its life expectancy. The system crosses three major earthquake fault lines (the San Andreas Fault, the Hayward Fault, and the Calaveras Fault). A recent SFPUC study estimates that a major earthquake on

any of the three faults might cause damage that could interrupt water service to Hetch Hetchy customers for up to 60 days. In order to address this issue, the SFPUC has developed a capital improvement plan that will modernize the system, making it less susceptible to natural disasters and improve system reliability. On May 28, the SFPUC approved the \$3.7 billion capital improvement plan to fix the issues with the system and approved the placing of a bond measure to fund the improvements on the November San Francisco ballot. It is expected that, if passed by the San

Francisco voters, the funding of these projects will increase the cost of the water that Sunnyvale and the surrounding communities purchase from Hetch Hetchy. It is not yet known what impact this will have on water rates. Future articles in the Quarterly Report will discuss potential impacts as the issue becomes more clearly defined. For more detailed information regarding the Hetch Hetchy system, see www.sfwater.org, or contact the City of Sunnyvale Utilities Division at 730-7400. ☎

HISTORY MUSEUM UPDATE

The City Council recently approved a concept to construct, in partnership with the Sunnyvale Historical Society and Museum Association, a Sunnyvale Historical Museum. It would be located at Orchard Heritage Park, adjacent to the Community Center. The museum is expected to take several years to materialize, since the majority of funds will need to be raised by the Museum Association. The City has committed to contributing \$500,000 to the project, and is currently working with the Museum Association to determine the exact size and location of the new museum. Both the Parks and Recreation Commission and City Council are scheduled to review staff's recommendation in September of 2002. ☎

NEW UTILITY RATES NOW IN EFFECT

New rates for utility services, including water, solid waste, and wastewater (sewer) service, went into effect at the start of the fiscal year on July 1. The average residential utility bill will increase by a total of \$2.07 per month. Even with the rate increases, the average monthly bill for these services for a single-family home in Sunnyvale is still about 31% less than the average monthly bill in other Santa Clara Valley communities.

Water Water rates for all Sunnyvale customers increased by 4.5%. The amount of water used each month varies from household to household,

but a typical consumption of 275 gallons of water per day would mean a monthly bill of \$16.66. The biggest contributor to the need for increased water rates is the higher cost of water from wholesale providers. The cost of purchased water accounts for more than 70% of the direct operating costs for the Sunnyvale water system.

Refuse The rate for solid waste service also increased by 4.5%, making the charge for one-can residential service \$18.02 per month and the cost of unlimited residential service \$25.72 per month. Solid waste rates include weekly collection of garbage, recyclables,

and yard trimmings, processing the collected materials at the Sunnyvale Materials Recovery and Transfer Station (SMaRT Station®), and disposal of refuse at the Kirby Canyon Landfill. The fees also pay for household hazardous waste disposal events and compliance with state and federal environmental regulations at the closed Sunnyvale Landfill.

Sewer The rate for residential sewer services this year is 4.0% higher, making residential rates \$17.59 per month, an increase of \$0.67 per month. Sewer rates cover the cost of preventing water pollution in San Francisco Bay through wastewater collection, treatment and disposal, and compliance with state and federal environmental regulations.

A brochure detailing single family residential utility rate increases was included with utility bills containing the new rates starting in July. More detailed information about specific residential rate changes is available from the City of Sunnyvale Utility Services Billing Office by calling 730-7400. Due to the complexities of commercial, industrial and multi-family utility services, specific rates and comparisons for those customers are not included here, but can be obtained by calling 730-7681. ☎

STUDY ISSUES INVITE PARTICIPATION BY RESIDENTS BEFORE POLICY IS SET

A series of public study issues this summer and fall will focus on a variety of topics that will be before the City Council for policy decisions in the coming months. The public is invited to review staff

reports and offer comments and ideas either in advance of Council meetings (by mail or email) or through public testimony in person. For more details on these and other Study Issues, visit the City's website at www.ci.sunnyvale.ca.us or call the City Clerk's Office at

730-7483. Staff reports on items scheduled for each City Council meeting are posted on the City's website, and are available in the Library and the City Clerk's Office, by 5 p.m. on the Friday preceding the appearance of the issue on the agenda. 🌟

AUGUST 13

MOBILE HOME PARK TRAFFIC ENFORCEMENT

This study will evaluate the effectiveness and need for the City to provide traffic enforcement services within mobile home parks, which are private property. Included will be discussion of the legal implications, the fiscal impact, and implementation questions.

AUGUST 27

COMPREHENSIVE REVIEW OF BELOW MARKET RATE PROGRAM

This study will consider terms of availability of housing units, eligibility, and housing preferences. The study will also examine whether to expand the BMR program to include other types of housing development such as assisted living and single family.

OCTOBER 8

PRIVACY ISSUES BETWEEN RESIDENTIAL AND NON-RESIDENTIAL DEVELOPMENTS AND ZONING DISTRICTS

This study will discuss the development requirements where commercial and residential properties back up to one another. The work-plan was approved in June. Discussion continues on whether existing requirements are sufficient or if additional requirements are needed to protect the privacy of residents. Specific topics of concern include line of sight between windows, the use of security cameras adjacent to residential properties, height of masonry property line walls, and setbacks and landscape buffers.

OCTOBER 15

HERITAGE LANDMARK DESIGNATIONS

This study is a review of three potential heritage landmark sites (from a list of 12 previously approved by the City Council). A consultant will review the background and history of the three sites. This issue will go to the Heritage Preservation Commission for review before it is considered by the City Council. Remaining sites will be reviewed over the next 2-3 years.

OCTOBER 15

REVIEW AND ANALYSIS OF PUBLIC SAFETY CITIZEN COMPLAINT PROCESS

This study looks at the existing process to initiate and follow up on complaints against public safety officers. It will explore other models used by other agencies to consider if the existing process should be reaffirmed or modified to incorporate other procedures.

NEW SPEEDY SELF-CHECK EQUIPMENT IN LIBRARY

New equipment available in the Sunnyvale Public Library in early August will allow patrons to check out books, videos, and DVDs on their own. Library staff will be on hand to show patrons how to use the new machines which contain instructions in English, Spanish, Chinese, and Vietnamese. "Many libraries are adding this new technology at the request of patrons who want to be able to check out materials quickly on their own," said Susan Denniston, Administrative Librarian. "We encourage patrons to try the new system and help us improve our efficiency in delivering service to the community." 🌟

PIPEBURSTING SAVES MONEY, TIME

Sunnyvale is using an innovative technology in its sewer replacement projects that minimizes the need for trenching. This results in lower costs and fewer traffic disruptions. The technique is called "pipebursting." The patented process, first developed by a British gas utility, pulls larger polyethylene pipe through old sewer lines made of fracturable material, such as clay. It was most recently used to increase the sewer capacity of the sewer main on Arques Avenue. The speed of replacement is four to six feet a minute, which is much faster than traditional methods, according to Public Works Director Marvin Rose. Sewer replacement projects can be done in about half the time and cost less than the old methods. "It's cost effective, environmentally-friendly and non-disruptive," he said, "which leads to very successful sewer replacement projects." 🌟

HAPPY BIRTHDAY TO US!

SUNNYVALE IS 90 YEARS OLD THIS YEAR!

Sunnyvale was incorporated as a city on December 24, 1912. Today it is the second largest city in Santa Clara County and internationally-known as the heart of Silicon Valley.

COME BE A PART OF "THE WORLD IN YOUR CITY" INTERNATIONAL STREET FAIRE

Saturday, September 21, 2002 11 a.m.-4 p.m.

Sunnyvale Civic Center Plaza (Olive Ave. near City Hall and the Library)

For an application to host a craft table, display table, or food booth or present on the entertainment or demonstration stage, call the Sunnyvale Community Center at 730-7350 or go to the website www.ci.sunnyvale.ca.us/leisure-services/events/isf/app.

The World in Your City International Street Faire

FY 2002/03 BUDGET: CITY MAINTAINS SERVICE LEVELS DURING ECONOMIC DOWNTURN

A \$216 million budget for Fiscal Year 2002/03 was approved by the City Council at the end of June. Due to Sunnyvale's emphasis on results-oriented service delivery and long-range financial planning, the budget maintains service levels with some expansion in specific areas despite the current economic downturn.

The economic downturn has significantly affected revenues to the City. Sales tax, for example, is expected to decrease by as much as 30% for FY 2001/02 compared to the previous year. Sales tax is the largest source of revenue to the City's General Fund. Transient Occupancy Tax is anticipated to be down 40% because of the decreased business travel to local hotels and motels. However, even with the serious decline in revenues, the adopted budget contains no reduction in service levels.

"The City's strategies of long-range financial planning, our commitment to setting service levels based on predictable amount of revenue, and our preservation of excess revenues during robust economic times for nonrecurring events and reserves will protect high levels of service in the City no matter what fluctuations occur in the economy," states City Manager Robert S. LaSala in his transmittal letter that accompanied the proposed budget to the Council.

These strategies have not only protected a high level of services, but also produced other benefits to the community, including the construction of a new senior center without incurring debt, and continued low utility rates for residents and businesses.

LaSala explained that Sunnyvale uses a sophisticated performance outcome-based budget system that includes two-year budgeting for operating programs and projects. In addition, the City Manager is required to submit a budget that is balanced not only for the budget year, but also for the Ten-Year Resource Allocation Plan. For the past several years the City has prepared a fully balanced 20-year financial plan, he added, which effectively requires that decisions made today guarantee that the resources will be available to provide quality services in the future.

The FY 2002/03 budget includes expanded services in the following areas:

- Public Safety Recruitment
- Performance Auditing
- Traffic Calming Efforts
- Boards and Commissions Recruitment Program
- Park and Recreation Department Fee Waiver Program

Capital and special projects on the list for FY 2002/03 include the Sunnyvale Senior Center, the Fair Oaks Skateboard Park, the Multimodal Transit Center, and Downtown Plaza Park. There are also significant infrastructure improvements planned, including the replacement of the Mathilda Avenue Railroad Overpass.

Although the City's strategies have maintained service levels for the upcoming year, the State is experiencing a \$22 billion deficit by the end of FY 2001/02, and that could have a significant negative impact on City revenues. The City Manager

notes, "Sunnyvale's strategies cannot completely protect us from the massive shifts of State-shared revenue from local governments to help solve the State budget crisis. Therefore, we must adhere to our successful financial and management practices and begin exploring options for new revenues."

The budget identifies key fiscal strategies utilized by the City Council and staff, including:

- Pay close attention to the financial impact of policy decisions made throughout the year.
- Rely on multi-year financial planning for key decisions.

Effectively employing these fiscal strategies ensure that the City is well positioned to handle fiscal challenges such as the State budget crisis and the current economic downturn.

Detailed information on the fiscal strategies and the budget, including both sources of revenue and planned expenditures, can be found on the City's website at www.ci.sunnyvale.ca.us. Copies of the budget are also available for review in the Sunnyvale Public Library or at City Hall. ☀

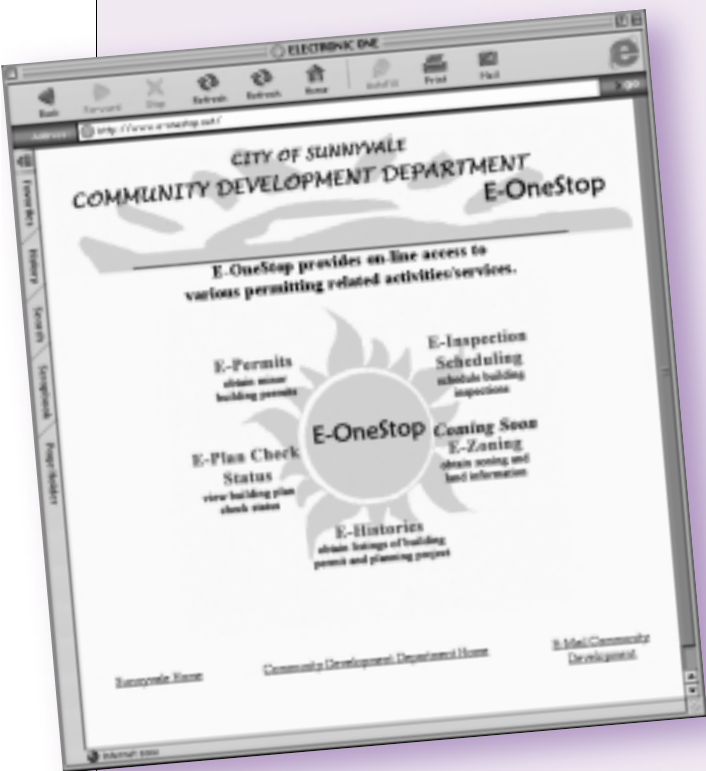

COUNCIL SAYS "LET'S GET TOGETHER"

As part of its efforts to expand outreach to the community, members of the Sunnyvale City Council are eager to meet with neighborhood and homeowners associations, and other clubs and organizations in the City.

The program is designed to increase face-to-face exchange of ideas and opinions in settings outside of City Hall. Councilmembers have committed to attend as many events as their schedule allows.

To invite the Council, call Michelle Taiariol, Senior Office Assistant, Neighborhood & Community Services, at 730-7489. ☀

TO SAVE YOU TIME, SUNNYVALE NOW OFFERS SEVERAL BUILDING PERMIT SERVICES ON-LINE AT WWW.E-ONESTOP.NET

E-Permits

Obtain minor building permits on-line.

Permits that are available include: re-roof, masonry fireplace repair, replacement of residential furnace or water heater, residential sewer and water line replacements, and residential tub/shower enclosure replacement.

E-Inspection Scheduling

Schedule building inspections on-line!

E-Permit Histories

Obtain permit histories for planning and building permits.

E-Plan Check Status

Monitor the status of building plan checks at any time.

For questions contact Ali Fatapour, Chief Building Official, at 730-7444 or by e-mail at afatapour@ci.sunnyvale.ca.us. ☀

ARE YOU SET FOR SUMMER?

Setting the thermostat of your home air conditioner to a slightly higher level is the most effective way to save significant dollars on your summertime energy bills. A setting of 78 degrees Fahrenheit is recommended when the house is occupied. When you're away from home, turn the air conditioner to 85 degrees, or turn it off altogether.

An Energy Star® labeled programmable thermostat allows homeowners to preset the temperatures to comfortable levels. For information on how to obtain one, call the Smarter Energy line at 1-800-933-9555 or visit www.pge.com/foryourhome.

There are many other ways to keep your home cool and comfortable during the hot summer months, and to save energy and costs. For example:

- Open windows in the evening and early morning to let fresh breezes off the Bay cool down the house.
- Install and use an Energy Star® rated ceiling fan. Fans save energy because they move air efficiently and use less energy. They also feature energy saving compact fluorescent lamps.

- Avoid using appliances during peak hours of 12 noon to 6 p.m. Wait until you have a full load before running the dishwasher or washing machine. Do laundry late at night or early in the morning.

Try drying some or all of the laundry in the outdoors rather than using the dryer.

- Seal cracks around windows, doors, fireplace and other places in the house where cool air may be escaping. A little weatherstripping can save big bucks on both summer and winter and energy bills.

- Switch off swimming pool filter and sweeping operations during the peak hours of 12 noon to 6 p.m.

- Turn off lights, computers, radios, TVs and other appliances when you leave a room. Unplug extra appliances, especially the second refrigerator in the garage.

- Add insulation in the attic. Increasing the level of insulation to an R-30 value (about 10 inches in depth) will greatly improve the comfort of your living areas during the summer.

- Install an attic fan to reduce heat build-up in the attic that will make

the rooms below more difficult to cool. Attic fans are controlled by automatic thermostats and are very quiet. Adding screened vents in the attic will improve ventilation and reduce attic temperatures that can get as high as 140 degrees when outdoor temperatures reach the 90s.

Making use of the sun as a source of electricity is possible by installing solar photovoltaics on your roof. The California Energy Commission has information about the benefits of solar power by calling 800-555-7794, and its Emerging Renewables Buydown Program offers consumers as much as 50% off the price of a renewable energy system. ☀

SAFE SUMMER BICYCLING TIPS

- Stay alert at all times.
- Ride with the traffic on the right side of the road. Stay at least three feet from cars and other obstacles. If the lane is narrow or there are obstructions on the right side of the street, merge into the center of the lane.
- Be predictable. Don't surprise drivers or pedestrians with sudden or unexpected maneuvers.
- Be visible. Use lights at night.
- Obey the rules of the road. Stop at stop signs and at traffic lights.
- Be aware and anticipate what drivers might do. Remember that they may not see you or realize how close you are.
- Report roadside hazards by calling 730-7415. ☘

NEW CNG TRUCKS IMPROVE AIR QUALITY

A new fleet of 24 compressed natural gas (CNG) trucks is now in use in Sunnyvale, replacing the diesel trucks formerly used to collect garbage, yard waste, and recyclable materials from local residents and businesses.

Compressed natural gas is considered one of the cleanest fuels. Using CNG-fueled collection trucks will dramatically lower harmful vehicle emissions and particulate matter

BAY AREA
AIR QUALITY
TRANSPORTATION
FUND FOR
CLEAN AIR

compared to those released from diesel powered vehicles. CNG vehicles are especially effective when used for solid waste collection because of all of the starts and stops drivers make servicing their routes. CNG trucks also feature quieter running engines, and some of the new trucks are fully automated, which reduces the risk of worker injuries.

The Bay Area Air Quality Management District (BAAQMD) granted \$1.2 million in funding for the new fleet. The California Energy Commission provided an additional \$200,000 in funding through the BAAQMD to help build a new CNG fueling station where the fleet will be fueled. The CNG fueling station is open for public use, including use by residents and organizations with fleet vehicles. For information about using the fueling station, contact Pinnacle CNG Systems, LLC at (915) 686-7002 or click on 'contact us' on their website at www.pinnaclecng.com. ☘

Avoid Pesticides in Your Home, Garden

Pesticides used around the home and garden kill more than unwanted insects. They can harm sensitive aquatic life in the Bay Area ecosystem.

Rain carries pesticides from residential neighborhoods into storm drains that carry them directly and untreated into creeks and San Francisco Bay. Pesticides can also reach creeks and the Bay if they are poured down the sink because wastewater treatment plants can't remove them entirely from wastewater.

There are several ways to avoid the use of pesticides that accomplish the same goal without using hazardous products. For example:

- Attract birds to the garden by adding a birdbath, birdhouse or feeder. A single swallow can devour large quantities of flying insects in just one afternoon feast.

- Purchase beneficial insects for the garden from a local nursery or garden store.
- Prevent pests from entering the house by trimming plants and trees so they don't touch the walls or roof.

- Remove diseased plants, tree prunings, fallen fruit and leaves from the yard.
- Select non-toxic or less toxic alternatives to pesticides.

If pesticides must be used, reduce the amount applied. Use only as much as needed by following the label instructions, and don't use pesticides when rain is predicted or prior to watering the lawn or garden.

Never dispose of unwanted pesticides in the trash, storm drain, or sink. Call the Sunnyvale Recycling Program at 730-7262 for drop off information.

For more information about less toxic pest control, call 1(866) WATERSHED or visit www.watershedwatch.net to request a free Watershed Watch Kit. ☀

ENVIRONMENTAL ACHIEVEMENT AWARD WINNERS

Environmental Achievement Awards for Art were presented by the City to children who created artwork on the theme "What I Love About Nature."

Art awards went to: **Patty Boonlue, Polly Boonlue, Stephanie Chieng, Eric Eroles, Brenda Hwang, Anuja Milind Joshi, Daniel Lee, Simon Lee, Sriya Malladi, and Smruthi Sriram.**

The Energy Efficiency Award was presented to **Pacific Gas & Electric**

and **Peek Signal Maintenance, Inc.** who collaborated with the City in replacing traffic signals with light emitting diodes (LEDs) in more than 3,000 signal lights. This reduced electricity demand of traffic signals by more than 50%.

Lockheed Martin Space Systems Company received an award in Pollution Prevention for cutting heavy metal discharges in wastewater by more than half compared to last year. A Transportation Achievement

Award went to **Juniper Networks, Inc.** for its success in achieving the two-year goals of a Transportation Demand Management Program in one year. The company has been creative and persistent in developing numerous ways for employees to get to work and also received a 2002 Spare the Air Award from the Bay Area Air Quality Management District.

Awards for Waste Reduction and Recycling were presented to **Lockheed Martin Space Systems**

Company and **Advanced Micro Devices (AMD).** Lockheed, with 8,000 employees and 40 buildings, diverted 45% percent of its waste stream during the past year. AMD's California site has diverted more than 50% or 2.75 million pounds of solid waste from the landfill during the past year. The company has been recognized by the State of California Waste Reduction Award Program (WRAP) every year since 1995. ☀

A Clean Car and a Cleaner Bay

How to wash your car and prevent pollution

Washing cars in a street or driveway can send many kinds of pollution untreated through the storm drains to our local creeks and the Bay.

- ✓ Wash your car on a grassy area, gravel driveway, or any unpaved surface where soapy water will not run into a street or storm drain.
- ✓ Use soap sparingly — even biodegradable soap can be harmful to wildlife!
- ✓ Pour your bucket of wash water onto landscaping or down the sink when you're done.
- ✓ Don't spray or rinse wheel cleaners where rinsewater might flow to a street or storm drain.

Best of all—use a commercial carwash!

Santa Clara Valley Urban Runoff Pollution Prevention Program
1-800-794-2482

COMMUNITY AWARD WINNERS REPRESENT WHAT IS BEST ABOUT SUNNYVALE — ITS PEOPLE

Winners of Sunnyvale community awards, honoring individuals and organizations who contribute outstanding efforts to the City's quality of life, were announced at the annual State of the City event at the end of May. Nominations were made by the public, community groups, schools, and businesses. Judging was conducted by a committee of residents and business representatives appointed by the mayor.

Distinguished Citizen of the Year: Laura Babcock

Laura Babcock was recognized for her ongoing effort to create a Sunnyvale History Museum. She and other volunteers are working with the Sunnyvale Historical Society and City staff to move or build a historic house at the Community Center to serve as a quality history museum. In the words of her nominator, Laura "is making a difference by inspiring everyone she works with to contribute time or talent to the development of this museum."

Outstanding High School Seniors: Michael Parenteau and Tiffany Tang

A member of the Fremont High School Class of 2002, Michael Parenteau has attained a 4.0 grade point average while serving as a leader and contributing to the community. Michael's many volunteer activities include building houses in

Mexico, serving as a consultant to the establishment of East Palo Alto High School, and tutoring math students who attend Fremont's feeder schools. He has also been active in sports — from cross country to soccer to track and field — and served in leadership roles in many organizations on and off campus.

Tiffany Tang is a senior at Wilcox High School, where she ranks first in her class with a 4.0 grade point average. Tiffany has worked with children

with disabilities at Therapeutic Recreational Services, tutored students at Millikin Elementary School, and taught young children at her church. Tiffany has also played piano for 12 years, served as captain of the varsity cross country team, and

participated in many community and school activities while also holding down part-time jobs. Her educational goal is to study medicine and become a pediatrician.

Outstanding Businessperson of the Year: Bruce Paynter

Bruce Paynter is the Senior Director of Applied Materials in Sunnyvale where he created a management model that integrates safety, security, facilities, wellness/work life balance, administration, and community relations. Bruce also has an extraordinary record of community service, including involvement in 145 community events in two years. Under his leadership, hundreds of

Applied Materials employees have become involved in Sunnyvale community and non-profit activities.

Outstanding Community Volunteer Award: Sew What Club

The Sew What Club is comprised of five ladies, ages 73 to 81: Manuela Rodriguez, Josie Garcia, Ann Brown, Gertie Bernal, and Frances Walias. For more than 40 years, they have helped others with their sewing abilities. They have dressed dolls for the Salvation Army, and made lap robes, bibs, slippers, and tote bags filled with toiletries for hospital patients. This group has also organized fundraisers that have raised thousands of dollars for the Shriners and Lucile Packard Children's Hospitals, the Blind Babies Foundation, Saint Judes Children Foundation, and the Fremont High School Alumni Association Scholarship Program.

Award of Excellence: Elena Anderson

The Award of Excellence recognizes people or organizations that have made an extraordinary and unique contribution to Sunnyvale. The 2002 recipient is Elena Anderson, longtime resident and vice president of the Lakewood Village Neighborhood Association.

Elena has done everything from organizing free tennis lessons for kids to cooking hamburgers at the neighborhood picnic, from leading a force of volunteers who hand deliver 1,600 newsletters each month to helping organize the City's only Holiday Parade. She is a passionate advocate for youth and serves as the hub of an informal support network that helps young people in the community in many ways. ✨

COMMUNITY PAGES WILL DEBUT IN FALL QUARTERLY REPORT

In order to provide another communication channel for nonprofit organizations and community groups, the City of Sunnyvale Quarterly Report will add a new Community News section. The new section will begin on a pilot basis in the Fall 2002 issue of the Quarterly Report.

"This is an opportunity to get the word out to every household in the City," said Coryn Campbell, manager of Neighborhood and Community Services, "and to let residents know of the programs and services available to them."

The Community News section will include four types of announcements:

- **Calendar items**, including name of the event, sponsor, date, time, location, cost (if any), one sentence description, and who to contact for more information. Community calendar items may also be added to a new section of the City's website on Neighborhood and Community Services, now under development.

- **Articles describing new** programs or services, upcoming special events, or collaborative efforts by agencies serving Sunnyvale. (See the articles in this issue on Project Sentinel, page 9, and the Family to Family Program, page 10, as examples.) Information submitted should be 150-200 words in length. Articles may be edited by the City, and the City reserves the right to publish any or all information or articles.

FOR MORE INFORMATION, CONTACT:

Michelle Taiariol
Phone: 408/730-7489
Fax: 408/730-7696
Email: mtaiariol@ci.sunnyvale.ca.us

Mailing Address:
City of Sunnyvale
Office of the City Manager
Neighborhood and Community
Services Division
P.O. Box 3707
Sunnyvale, CA 94088-3707

- **Community Services Directory** listings for neighborhood associations and nonprofit organizations not already listed in other City publications. Listing will include name of organization, contact, address, phone, email, website, and a one- or two-word description or category such as "social services agency."

- **Display ads for non-profit** social service agencies and community groups serving Sunnyvale. Display ads will be limited, depending on space, and will have a fee. More information will be provided when organizations call to inquire.

The deadline for submitting information for the premiere of the Community News section is September 1 for the Fall issue, which will be distributed to Sunnyvale residents at the end of October. ✨

CHILD SAFETY SEAT LAW PROTECTS KIDS AGES 3 TO 6

A California law now requires that children are secured in a safety seat in the car until they are at least 6 years old or weigh at least 60 pounds. Drivers who do not safely restrain their youngsters according to these guidelines — even if they are unaware of the new law — can and will be ticketed.

The child safety seat law is designed to better protect youngsters between the time that they are too big for “baby” seats and yet too small to be safely restrained by adult seat belts that are meant for much larger bodies. During this in-between period, children should use booster seats in conjunction with the vehicle’s lap and shoulder belt.

The National Highway Traffic Safety

Administration reports that if adults properly restrained children from birth through age 15, 100 percent of the time, more than 600 additional children’s lives would be saved each year and an additional 182,000 serious injuries would be prevented. 🌟

VIAL OF LIFE CAN SAVE YOUR LIFE

In an emergency, time is crucial. The *Vial of Life* kit enables emergency responders, such as public safety officers and paramedics, to quickly locate helpful information regarding your medical history. They know to look for the *Vial of Life* sticker in homes, offices, and cars.

The *Vial of Life* kit contains a medical information form that alerts emergency personnel to illnesses, allergies, and other medical conditions or history that could be vital information in receiving emergency treatment. The form also lists contact information for family or friends who should be notified. The kit also includes *Vial of Life* stickers that can be applied to the outside of a refrigerator door or the glove box of a vehicle and a vial for storing the medical information form and any advanced directives you may have, such as do-not-resuscitate orders.

The *Vial of Life* kit is available from the Sunnyvale Department of Public Safety, 730-7151, or the Sunnyvale Senior Center, 730-7360. This free program is funded by a grant from Stanford Hospital and Clinics Office of Community and Patient Relations. 🌟

GOT A PROBLEM? HELP IS AVAILABLE!

First Call for Help Information and Referral Services (408) 248-4636

At one time or another, all of us need help. That’s why United Way Silicon Valley has created First Call for Help — to get you help fast when you need it.

At First Call for Help, a trained information and referral specialist will help you find the service you need. They have more than 600 community agencies at their fingertips. The information is free, Monday through Friday from 8:30 a.m. to 4:30 p.m.

Help is available for:

- Emotional problems
- Food, shelter, or clothing
- Child care
- Financial troubles
- Health problems
- Alcoholism and drug abuse
- Job training and placement
- AIDS/HIV
- Disability
- Plus much more! 🌟

BLOOD PRESSURE SCREENINGS

Volunteer nurses provide FREE blood pressure screenings.

Mondays & Thursdays

10:00 – 11:30 am

Sunnyvale Senior Center,
Room 203
820 W. McKinley Ave.
730-7360 🌟

PROJECT SENTINEL HELPS RESIDENTS WITH DIFFICULT SITUATIONS

A dispute with a landlord. Help with a difficult roommate. Counseling as you buy your first home. Mediation for an argument with your neighbor over problems like barking dogs or sagging fences.

Many difficult, but common, situations experienced by Sunnyvale residents may be helped with the confidential and neutral community mediation services available free from Project Sentinel. This nonprofit organization, founded in 1976 and headquartered in Sunnyvale, contracts with the City to provide mediation services for a variety of disputes.

Project Sentinel employs professional, neutral mediators who can conduct telephone conciliation or full-scale, in-person mediation sessions. Their role is not to recommend solutions, but to help the parties involved develop their own ideas for resolution and reach decisions. Mediators speak English and Spanish, and Chinese translation is also available.

Services include counseling to: tenants and landlords on rights and responsibilities; first time homebuyers; individuals with mortgage default problems; roommates involved in disputes; homeowners associations experiencing disputes; mobile home park residents and owners; and neighbors who disagree.

For information, call Project Sentinel at 720-9888 or send an email to mediate4sv@aol.com. The agency is located at 1055 Sunnyvale-Saratoga Rd., #3, Sunnyvale, CA 94087 or www.housing.org. 🌟

APPLICATIONS ARE BEING ACCEPTED FOR BOARDS AND COMMISSIONS

Applications are being accepted for the following Boards and Commissions: Arts Commission, Personnel Board, Board of Building Code Appeals, Child Care Advisory Board, Heritage Preservation Commission, Parks and Recreation Commission.

Information meetings will be held on Oct. 11 and Nov. 7 at 6:00 p.m. in the West Conference Room at City Hall.

The deadline to apply is 5:00 p.m., Nov. 17, 2002.

For more information call (408) 730-7483 or visit www.ci.sunnyvale.ca.us/bc-com. 🌟

SUMMER BURGLARY PREVENTION TIPS

With people away on summer vacations, homes are more vulnerable to burglaries. Here are a few tips from the Public Safety Department on how to protect your home and valuables.

SKATE PARK CONSTRUCTION STARTED

Construction began in June on the new Sunnyvale Skate Park in Fair Oaks Park. If weather cooperates, skateboarders and in-line skaters will be able to use the facility by December.

A safe place for skateboarding was one of the recommendations of a study conducted by the City to explore ways to expand services to teens. A feasibility study then evaluated several locations. Fair Oaks Park was selected because of its central location, available space, and other favorable factors.

For further information on the skate park and its construction, call 730-7618.

- Make your home look occupied, and make it difficult to break in. Lock all doors and windows. Install deadbolt locks on all outside doors if you don't already have them.
- Connect some lamps to automatic timers to turn them on in the evening and off during the day while you are away.
- Keep your garage door closed and locked.
- Don't allow daily deliveries of mail, newspapers or flyers build up while you are away. Arrange with the Post Office to hold your mail, or arrange for a friend or neighbor to take them regularly.
- Arrange for your lawn to be mowed if you are going away for an extended time.
 - Check your locks on doors and windows and replace them with secure devices as necessary.
- Sliding glass doors are vulnerable. Special locks are available for better security.
- Never leave keys under doormats, flowerpots, mailboxes, or other "secret" hiding places. Burglars know where to look for hidden keys.
- Keep a detailed inventory of your valuable possessions, including a description of the items, date of purchase and original value, and serial numbers, and keep a copy in a safe place away from home. [This is also helpful in case of fire or other disasters.] Make a photographic or video record of valuable objects, heirlooms and antiques.
- Trim your shrubbery around your home to reduce cover for burglars.
- Be a good neighbor. If you notice anything suspicious in your neighborhood, call 9-1-1 immediately.

Call the Sunnyvale Public Safety Department for other crime prevention advice and for a free home or business security survey. The Sunnyvale Crime Prevention Unit is at 730-7140. ☀

LEARN HOW TO SAVE A LIFE

CPR and AED stand for more than alphabet soup! Just ask any of the cardiac arrest survivors in Sunnyvale whose lives were saved by the quick action of rescue workers and everyday "heroes" who knew how to use CPR and automated external defibrillators (AEDs).

The City of Sunnyvale has placed AEDs in several public locations throughout Sunnyvale including the Community Center, Library, swimming pool, golf courses, Senior Center, and the Town Center Mall, as well as various businesses.

Sunnyvale Parks and Recreation, in conjunction with Sunnyvale Public Safety, is offering classes to anyone 12 years and older who would like to learn rescue skills, including how to clear obstructed airways, techniques of CPR, and how to use automated external defibrillators.

Sessions are scheduled for Wednesday, August 14, or Wednesday, August 28, from 6-10 p.m. in the Neighborhood Room of the Recreation Center. Fee is \$40 for Sunnyvale residents and \$45 for non-residents. Participants who successfully complete the one evening class will receive certification in adult CPR with AED skills, which is valid for one year.

For more information, call the Sunnyvale Community Center at 730-7350 or go to the website www.ci.sunnyvale.ca.us/leisure-services.

NATIONAL NIGHT OUT CELEBRATES SAFE NEIGHBORHOODS

Sunnyvale neighborhoods are invited to join thousands of communities nationwide to "Give Crime and Drugs a Going Away Party" during the 19th annual National Night Out.

On August 6, from 7 to 9 p.m., residents are encouraged to turn on porch lights and step outside to meet their neighbors. Celebration ideas include block parties, ice cream socials, neighborhood walks, and cookouts. Organizers can highlight the evening by scheduling a visit from Sunnyvale Public Safety Officers.

National Night Out is an organized effort to raise crime and drug prevention awareness, increase neighborhood spirit, develop police-community partnerships, and let criminals know that neighborhoods are prepared to fight back!

This year, more than 32 million people in nearly 10,000 communities nationwide are expected to participate in this event sponsored by the National Association of Town Watch and co-sponsored by the Sunnyvale Department of Public Safety.

Sunnyvale neighborhoods that plan to participate may contact Mariana Alvarez, Public Safety Crime Prevention Unit, at 730-7117. ☀

FAMILY TO FAMILY PROGRAM HELPS SUNNYVALE KIDS WHO NEED A FOSTER HOME

There are about 50 Sunnyvale children who have entered the foster care system over the last few years, but there is only one Sunnyvale foster family on record with the Santa Clara County Department of Family & Children's Services.

The agency is now partnering with a wide range of community organizations in Sunnyvale to try to

recruit, train and support more foster families so that local children in need of foster care can remain in the community they already know.

The Family to Family program hopes to reduce the number of children in institutional care and increase the number of foster families and relative caregivers.

For further information on how your community group, school, or

faith organization can become involved, or for information on how to become a foster family for a child in need, call Lisle Smith Cohen, Social Services Program Manager, Department of Family and Children's Services at 975-5511. ☀

COMMUNITY EVENTS

National Night Out
Tuesday, August 6
7:00 p.m. - 9:00 p.m.
“A Going Away Party for Crime and Drugs.”
For more information Mariana Alvarez at 730-7717.
Turn on your porch lights, lock your doors and come outside to meet your Neighbors! Over 32 million people in more than 9,500 communities across the country will join forces on August 6 to promote police-community partnerships; crime, drug and violence prevention; safety; and neighborhood unity. Neighbors will participate by holding block parties, neighborhood walks, ice cream socials, and other events. Public Safety staff will visit community events by appointment. Neighborhoods without organized events can show their support by turning on their porch lights.

International Street Fair
Saturday, September 21
11 a.m. - 4 p.m.
On W. Olive Avenue (in front of City Hall/Library)
For more information call 730-7515.
Enjoy the late summer sun at our street side celebration of the richly diverse cultures of the Sunnyvale community. Watch our all-day multi-cultural entertainment on three stages, including various performers from the community. Enjoy selections from our International Food Court. Stroll through the displays of community cultural groups and experience music, dance, and sports with your neighbors. Children can make multi-cultural crafts. Come and experience the many cultures of the world in your City.
